

# Master SimVenture Evolution

Choose the training that suits you

Title	Day	Typical Attendee & Course Summary All courses involve use of the software	Fee (ex VAT)
<b>Taster Day</b> SimVenture Evolution  July 1 <sup>st</sup>	<b>Monday</b> Is SimVenture Evolution for me?  (1 Day)	Academics interested in the possibility of using Evolution but are yet to fully commit to the simulation.  The course provides an overview of how the software works and how academics use it. Participants are able to run their own simulated company and explore the technology from both learning and teaching perspectives.	£135.00 Per Person.  £75.00 Earlybird rate available until end Feb 2019  £150 Voucher provided (P/P) on the day for discount against future software purchase
<b>Accredited Tutor</b> SimVenture Evolution  July 2 <sup>nd</sup> – 3 <sup>rd</sup>	<b>Tuesday and Wednesday</b>  Understanding how to use Evolution  (2 Days)	Academics seeking to use Evolution & embed in a module or Programme.  The course covers all aspects of the simulation and by the end of day 2, participants can use Evolution with confidence, know how to teach with it and understand fundamental aspects of managing the Control Tower.	£350.00 Per Person.  £195.00 Earlybird rate available until end Feb 2019  CPD Accreditation Certificate upon completion
<b>Master Trainer</b> SimVenture Evolution  July 4 <sup>th</sup>	<b>Thursday</b>  Advanced use of Evolution  (1 Day)	Academics who have already used Evolution and wish to understand more advanced features such as running competitions and making full use of the Control Tower.  The day also covers advanced pedagogical approaches and provides robust thinking and ideas for different types of assessment, learning scenarios and linking Evolution to work (e.g. research) outside the class.	£195.00 Per Person.  £95.00 Earlybird rate available until end Feb 2019  CPD Accreditation Certificate upon completion
<b>Simulation Strategy</b> SimVenture Business Simulations  July 5 <sup>th</sup>	<b>Friday</b>  Strategic use of simulations across an institution  (1 Day)	Institutional and Departmental leaders keen to understand and develop strategies to maximise the impact of innovative learning technologies. The day examines the application of existing and emerging VSL learning technologies in the context of current and future sector trends. The course references research, case studies and practices from across the sector.	Invitation only  Free to attend.
<b>Notes</b>	Participants can choose to be involved in any number of days depending on learning preferences. All quoted prices exclude hotel accommodation costs.
